TOPIC	DISCUSSION/INFORMATION		ACTION REQUIRED	By When
<b>1.0 Call to Order</b>	Meeting called to order at 12:09 pm			
<b>2.0 Past Minutes</b>	Unanimously voted to approve May 18, 2017 minutes with one spelling correction.			
<b>3.0 Updates from OHA</b>	<ol style="list-style-type: none"> <li>Oregon Health Authority's December 2016 Opioid prescribing guidelines task force recommendations for dentists, a list of 15 recommendations (2 page document) for prescribing opioids for dental pain: <a href="https://public.health.oregon.gov/PreventionWellness/SubstanceUse/Opioids/Documents/oregon-recommended-opioid-guidelines-dentists.pdf">https://public.health.oregon.gov/PreventionWellness/SubstanceUse/Opioids/Documents/oregon-recommended-opioid-guidelines-dentists.pdf</a></li> <li>Ignatius Bau webinar recorded: How CCOs are Advancing Health Equity through Health System</li> </ol>			

	<p>Transformation”, originally presented on May 16<sup>th</sup>, is now recorded for listening: <a href="https://attendee.gotowebinar.com/recording/4214525208997820417">https://attendee.gotowebinar.com/recording/4214525208997820417</a></p> <p>3. Effective 5/1/17, the OHA approved a rate change for OHP members to access doula services. This change pays more for the support that doulas provide at delivery and also pays for doula support visits to the mother, before and after delivery. A fact sheet for members can be found at: <a href="http://www.oregon.gov/oha/healthplan/tools/Doula%20services%20for%20Oregon%20Health%20Plan%20members.pdf">www.oregon.gov/oha/healthplan/tools/Doula%20services%20for%20Oregon%20Health%20Plan%20members.pdf</a></p> <p>Dr Muday shared that advantage dental has taken the lead for the opioid prescription guidelines for dentists and have given prescribing guidelines to dentists on ibuprofen vs morphine and how ibuprofen can be more beneficial with less potential risk. * Also WOAHA is trying to roll out program for pain management that includes gym and pool memberships for people who aren't eligible for the weight management program that offers those benefits.</p>		
<p><b>4.0 Updates from WOAHA</b></p>	<p>Jesse: *Maggie is doing a tobacco cessation class in Brookings- she is also partnering with Allcare to try to bring cessation classes to the CCH office in brookings on 5<sup>th</sup> street. * Jesse is helping distribute pool vouchers to eligible clients in the weight management program. *He had a successful health fair at the highschool- was a good time with great networking opportunities and lots of high school students came through. *Maggie and Alisha did a lunch inservice to the Port Orford CHN clinic on the WOAHA Hep C policy. Other clinics are being planned to be scheduled in July and August. Lisa: *gathered group to talk about equity coalition. *WOAHA is in discussions to have more ACES trainings in Curry and Coos Counties. * Received 2 thank you cards from food banks that the CHIP subcommittees helped to sponsor. *CHIP progress report will be submitted this month. *Began discussions on developing a new CHA in partnership with CCH, CHN, and Allcare- the process would begin within the next few months. *** We talked about alternative services that could be made available to people such as yoga, tai chi, natural supplements- how could these be provided and made sustainable- what kind of support or reimbursement for services would be available from CCO's. – The CHA helps develop and identify the areas of need in our communities.</p>		
<p><b>5.0 CHIP Updates</b></p>	<p>Transportation survey will be going out soon; decision that the CHIP doesn't need to develop a rack card- will just utilize the Translink one when completed. Other CHIP information is that the funds</p>		

	for the mini grants were decided to be split for supporting Charlottes position with 2-1-1, funding for paper copies of resource guide from OASIS, reimbursement funding to Alice Taylor and OKQ, and funding to support Gordons prevention projects.		
<b>6.0 Event Updates</b>	<p>Peerpocolypse: Great event with a ton of information, could have even used another day to just have more time to process and gather information. Learned about all of the pieces involved with peer delivered services including the managerial aspects. There still seems to be an issue with what is a billable service and what is not and who can bill for the services provided. Dori attended an evening meeting that she felt was very beneficial about positons that are being discussed for a supervisory role and would potentially require a year or more of experience providing peer delivered services to be eligible. There is a lot happening at the state level which is great but it requires a lot of buy in at the local level as well. Curry needs to continue to focus on developing a robust volunteer program.</p> <p>CAC Event: lots of information, with great oportunites and activities. Overall a great experience and learned about things on how to build a good basis for the CAC including dominicas which are movement and trust building opportunities.</p> <p>Applied Nutrition: lots of really great info and learning opportunities but really felt geared to professionals which made it overwhelming at times. We would like to see something more simple that we could offer to the community.</p>		
<b>7.0 Photo Voice</b>	Created and compiled by students from all 3 high schools in the county. Shawna and Kim supervised and supported them through the process and will be sharing it out to community groups and hopefully in a town hall meeting type setting. The video is available on the CCH facebook as well as on YouTube.		
<b>8.0 Other Updates</b>	<p>Gordon: the ASSIST workshop in brookings has 38 people signed up so far, leaving 7 remaining spots still available.</p> <p>Kaitlyn: Shawna will be taking over as Coordinator while out on maternity leave.</p>		
<b>9. Topics for Next Meeting</b>	CAC Retreat/ CAC 101, dominicas.		
<b>10. Adjourn</b>	<p>Meeting adjourned at 1:44 pm</p> <p>Next meeting will be on 7.20.2017 at the Pacific Reef Hotel Conference Room at 12 pm.</p>
